

to retreat to and enjoy the open views towards the sea, the Peñon and the Bernia while enjoying a drink and a bite. Like the entire villa, the outdoor space can also be called spacious. There is a lovely heated swimming pool with slide, a pergola for some shade and a large uncovered terrace with space for at least 8 sunbeds. As an extension, there is a terrace across the entire width of the house, partly with a stone floor and partly with a wooden floor. Several seating areas can be arranged here and there is a jacuzzi. A little further on, the terrace runs into a lawn with artificial grass. There is also a veranda with barbecue corner and space for a large dining table. A lovely spot for al-fresco dining. The property has gas central heating, air conditioning, alarm, a garage for 3 cars and a carport for 1 car. This lovely villa for sale in Moraira is ideal for those who want space and tranquillity.
